Unpaid Pavilions at Expo 2025

◆We were begged to make it in time for the opening, and we did our best. However, due to the unpaid construction costs, we are in danger of serial bankruptcy and life.

The following responsible persons should consult and take measures as soon as possible.

▼ Where to submit your signature

- Prime Minister
- Minister of Economy, Trade and Industry
- President of the Japan Association for the World Exposition Masakazu Tokura
- Osaka Governor Yoshimura Hirohumi

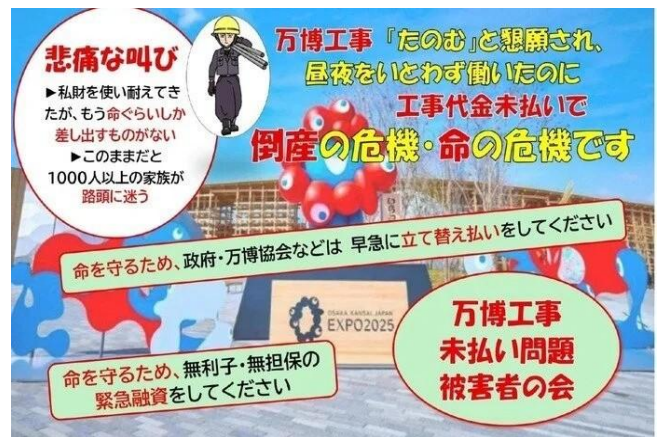

1. In order to protect lives and livelihoods, please pay us the outstanding construction fee as soon as possible.

We have been doing our best to carry out the national policy of the Expo. Please use your tax and pay in advance.

Also, since we are earning money from the pavilion built by the unpaid victims, please use the income from the Expo admission fee as the source of advance payment.

2. Urgently implement interest-free loans with long repayment terms to protect lives and livelihoods.

Currently, we are living by disposing of our personal belongings, but we are already at our limit. Some of my friends are evicted because they can't pay their rent and have no place to sleep. In order to protect our live and livelihoods, please take out an interest-free loan with a long repayment period as soon as possible.
